[themanorgolfclub.com](http://themanorgolfclub.com)

## COMMUNITY YOUTH SPORTS LEAGUE TIPS:

1. Register Early! You will receive all important information for the league for a fun season after you register. The sooner, the better when it comes to registering.
2. It's important that you provide an email address during registration that you check often. Email is used often for pre-season sharing of important information.
3. Download the App that your organization uses when prompted via email after you register. Schedules will eventually be posted to your app. (Schedules are not made until after registration closes. It's important to know the number of players before forming teams, schedules, and starting the season). Register early to help in the process!
4. Weather & other factors are out of the organization's control and can cause schedule changes, it's important to know your coaches preferred method of communication when your season starts!
5. Help reinforce skills at home as well as a positive team attitude.
6. Make sure your players put their name on their water bottles and bring plenty of water to games & practices.
7. All of these organizations are made possible by parent volunteers. Coaches are always needed. We encourage you to get involved!
